Customer Support Guidelines

The portals and aliases provide access to a wealth of information and support resources. View your open tickets, submit new ones, and contact Customer Support.

What Customer Support Covers

- ✓ Troubleshooting and resolution assistance for product issues on supported configurations
- ✓ Remote diagnostics
- ✓ Additional Service Enhancements available to customize your support package
- ✓ Product upgrade releases (on premise)
- ✓ Maintenance releases (on premise)
- ✓ Application Integration Issue*

What Customer Support DOES NOT Cover

- ✗ Architecture reviews
- ✗ Custom code review or troubleshooting
- ✗ Custom enhancements (submit as idea to the community)
- ✗ Knowledge transfer and training services
- ✗ Development services
- ✗ Implementation
- ✗ Third party product or hardware recommendations
- ✗ Troubleshooting of non-Adobe products
- ✗ Issues from non-supported configurations (Note: Such requests are to be channeled)
- ✗ Performance Tuning
- ✗ Non-reproducible issues

Ways to Contact Customer Support

Adobe Customer Support offers support via chat, email, phone, and web. For P1 issues we recommend you contact via phone for immediate assistance.

To enable us to handle your inquiry efficiently, please provide us any and all steps to recreate it on our end; that is, the clearer the details, the better it will be addressed. Upon submitting a ticket, we recommend outlining and/or having ready, depending on the method in which you contact Customer Support, the following applicable information (see page 22 for an example):

The portals and aliases provide access to a wealth of information and support resources. View your open tickets, submit new ones, and contact Customer Support.

Who can Contact Customer Support?

Adobe accords highest priority to the security and protection of your data. To ensure that, we encourage you to designate some people from your organization as Named Support Contacts who will have full access to the product, are trained on it and can answer basic questions specific to the implementation.

- Only Named Support Contacts will be authorized to discuss the data and make necessary changes to the account settings.
- People not authorized as Named Support Contact can reach out to Support team, however, will be directed to online help/forums.

Modifying or adding Named Support Contacts

- Only existing Named Support Contacts can get any changes made to the list of existing Named Support Contacts in the same organization.
- Contact Customer Care via phone or email to add/remove users.

Adobe Customer Support Priority Definitions

We base the response times and actions on an assessment of the impact reported by your business. The more serious the business impact, the higher the assigned priority. The following guidelines will assist you in determining the appropriate priority level.

Service Level Targets: Initial Response & Priority Definitions

Priority	Definitions	Online Support	Business Support	Enterprise Support	Elite Support
PRIORITY 1	Customer's production business functions are down or have significant data loss or service degradation and immediate attention is required to restore functionality and usability.	24x7 / 1 hour	24x7 / 1 hour	24x7 / 30 minutes	24x7 / 15 minutes
PRIORITY 2	Customer's business functions have major service degradation or potential data loss, or a major feature is impacted.	Business hours / 4 hours	Business hours / 2 hours	24x5 / 1 hour	24x5 / 30 minutes
PRIORITY 3	Customer's business functions has minor to no service degradation but there exists a solution/workaround allowing business functions to continue normally.	Business hours / 6 hours	Business hours / 4 hours	Business hours / 2 hours	24x5 / 1 hour
PRIORITY 4	General question regarding current product functionality or an enhancement request.	Business days / 3 days	Business day / 1 day	Business day / 1 day	Business day / 1 day

In the form that appears, specify the name of the product you need assistance with. To see a list of options, type the first few letters of the product name.

Case Description | Adobe Experience Manager, Adobe Experience Platform & Adobe Campaign

When the case form appears, complete the details about the issue using the below information as guide:

Category	Description
Specify a product	Specify the name of the product in the given field. To see a list of options, type the first few letters of the product name. This option is not available if you create a case for managing users and licenses.
Select the priority of the issue	<p>Depending on how the issue impacts your operations, classify it as follows:</p> <p>P4 (Minor): Select this option if the issue does not cause any significant interruptions to normal operations. This option can include issues related to APIs and integration, installation and configuration inquiries, enhancement requests, or documentation questions.</p> <p>P3 (Important): If the issue interrupts normal operations, select this option. For example, malfunctioning or incorrect behavior of the software.</p> <p>P2 (Urgent): Choose this option when there are serious interruptions to your business' normal operations. For example, if the issue negatively impacts an enterprise-wide installation, urgent deadlines, or causes financial risk to business.</p>
Quantify the impact of the issue	<p>Based on the scale at which the issue affects your organization, select one from the following options:</p> <p>Small: One or two users impacted</p> <p>Medium: A specific group of users impacted</p> <p>Large: Most users impacted</p>

Category	Description
Summarize the issue	<p>Provide a descriptive summary of your issue. Mention what the specific problem is and what you are seeing.</p> <p>Examples of descriptive summaries:</p> <p>Error "Could not process incoming SAML response" with Federated ID</p> <p>"Account not recognized" in the support panel</p> <p>Error 400 or other error when attempting to validate a domain claim</p> <p>Users, groups, or identity panel is blank</p> <p>Change Domain Claim from Enterprise ID to Federated (or conversely)</p> <p>Receiving the error "An invitation with this code was not found"</p>
Describe the nature of the issue	State your queries or describe your issue in detail, including the workflow that caused the issue and steps to reproduce. Include details about when it first happened.
Attach screenshots or files	You can attach relevant files under 20MB to the case. For example, a screenshot of the error. Executable and DLL files are not supported.
